WORK EXPERIENCE

Full-Stack Developer
"Aif Net" Ltd., Sofia | Mar 2023 - Present | Sofia,
Bulgaria

- Develop and maintain a high-traffic consumer platform for generative image and media production
- Design and scale backend systems for AI-driven workflows, including image generation pipelines, vector-based search, and external AI integrations.
- Build internal admin, monitoring, and data-processing tools to ensure reliability, performance, and cost control under high concurrency.
- Responsible for core backend systems supporting a production AI platform with a large consumer user base.

Web Programmer
"Hostum" Ltd., Sofia | Oct 2021 - Mar 2023 | Sofia,
Bulgaria

- Developed and maintained web applications and backend systems using PHP and Laravel.
- Worked on e-commerce platforms, hosting-related tools, and internal systems.
- Handled full-stack tasks including backend logic, databases, and frontend integration.
